Cell Differentiation and Development, 28 (1989) 219–220
Elsevier Scientific Publishers Ireland, Ltd.

Contents Volume 28

No. 1

Growth factors, protooncogenes and human placental development
R. Ohlsson (Sweden) (Review) 1

Changes in the patterns of RNA synthesis in early embryogenesis of *Xenopus laevis*
K. Shiokawa, Y. Misumi, K. Tashiro, N. Nakakura, K. Yamana and M. Oh-uchida (Japan) 17

Mutational analysis of pistil structure and development of *Arabidopsis thaliana*
K. Okada, M.K. Komaki and Y. Shimura (Japan) 27

Modulation of ornithine decarboxylase gene transcript levels by differentiation inducers in human promyelocytic leukemia HL60 cells
C. Rius and P. Aller (Spain) 39

A retroviral gp70-related protein is expressed at specific stages during mouse oocyte maturation and in preimplantation embryos
P.-O. Kättström, G. Bjerneroth, B.O. Nilsson, R. Holmdahl and E. Larsson (Sweden) 47

Rat granulated metrial gland cells differentiate in pregnant chimeric mice and may be cytotoxic for mouse trophoblast
S. Peel and I. Stewart (U.K.) 55

Fetal germ cells establish cell coupling with follicle cells in vitro
M. De Felici, S. Dolci and G. Siracusa (Italy) 65

No. 2

The egg of *Xenopus laevis*: a model system for studying cell activation
M. Charbonneau and N. Grandin (France) 71

Cytokeratin-like proteins in the sheep oocyte
L. Gall, P. Le Guen and D. Huneau (France) 95

Reversible dedifferentiation and redifferentiation of a melanized cell line from a goldfish tumor
S.-C. Chou, C. Yang, V.A. Kimler, J.D. Taylor and T.T. Tchen (U.S.A.) 105

An analysis of total RNA translation products of rat liver during regeneration with a comparison to fetal liver
H.S. Beyer, B.M. Sharp and L. Zieve (U.S.A.) 119

A balance between self-renewal and commitment in the murine erythroleukemia cells with the transferred *c-myc* gene; an in vitro stochastic model
T. Yamamoto, K. Masuko, S. Takada, T.U. Kume and M. Obinata (Japan) 129

Thyroidal status and myosin isoenzymic pattern in the skeletal dorsal muscle of urodelan amphibians – the perennibranchiate *Proteus anguinus*
C. Chanoine, M. Guyot-Lenfant, A. d'Albis, J.P. Durand, F. Perasso, A.-M. Salles-Mourlan, C. Janmot and C.L. Gallien (France) 135

Regeneration of cat posterior temporalis muscle in culture
M.A. Hill, M.S. Ecob-Prince and J.F.Y. Hoh (U.K., Australia) 145

No. 3

Review

Embryonic lens induction: more than meets the optic vesicle
M.S. Saha, C.L. Spann and R.M. Grainger (U.S.A.) 153

Post-natal pattern of cell proliferation in retinal pigment epithelium of mice studied with tritiated thymidine autoradiography
A.V. Ershov and O.G. Stroeva (U.S.S.R.) 173

Stimulation of limb cartilage differentiation by cyclic AMP is dependent on cell density
B.J. Rodgers, W.M. Kulyk and R.A. Kosher (U.S.A.) 179

Ontogenetic analysis of embryonic palatal type I and type II cAMP-dependent protein kinase isozymes
K.K. Linask and R.M. Greene (U.S.A.) 189

Involvement of endogenous galactoside-binding lectin of *Xenopus laevis* in pattern formation of *Xenopus* neurites in vitro
N.C. Milos, Y. Ma and Y.N. Frunchak (Canada) 203

Rapid Communication

Neural differentiation of *Xenopus laevis* ectoderm takes place after disaggregation and delayed reaggregation without inducer
H. Grunz and L. Tacke (F.R.G.) 211
